music

TMD01USB   Twinkly Music – USB-Powered Music Player

Twinkly Music – USB-Powered Music Player. Unique light effects in sync with your favourite songs. Indoor use.

Twinkly Music is a USB-powered device that enables all Twinkly devices to create amazing effects in sync with music. Equipped with a very sensitive digital microphone and powerful multicore DSP, Twinkly Music is capable of identifying and interpreting any source of music reproduced in your environment, whether it's classical Christmas songs or ultimate techno music, enabling your lights to follow the beat for a WOW-effect audiovisual experience.

By simply pressing the button, you can easily change the music driver to obtain the perfect effect and the ideal atmosphere, for whatever the occasion may be.

Easily configurable via Wi-Fi and Bluetooth®, Twinkly Music is controlled using the free Twinkly App, available for iOS and Android.

Suitable for indoor use only, rated IP20.
